AMC Foundry

COMPANY OVERVIEW

Founded in 1973, our company is a leading expert in green sand castings. With a rich history and extensive experience in the foundry business, AMC is dedicated to providing top-quality and efficient manufacturing of Gray Iron castings. We cater to both national and international markets, ensuring excellence in every product we deliver.

LOCATION

AMC is based in Cadereyta Jimenez, NL, Mexico, only 20 miles from Monterrey and 13 miles from Mariano Escobedo International Airport. We're just 150 miles away from the US border.

- Spectrometer
- Pyrometer
- Metallography
- Brinell Hardness Tester
- QuiK-Lab E Heraeus
Electro-Nite

CLIENTS & TESTIMONIES

Felipe Cruz
Commodity manager
Appleton

“During the three years as customers AMC has always delivered the material on time. Their ability to develop new projects has been very successful”

“They have been part of our growth to supply castings and certainly are considered as a future supplier for future projects”

Aquiles Milonás
